Mission and Vision

The goal of the SHIP is to redesign Idaho's healthcare system, evolving from a fee-for-service, volume based system to a value based system of care that rewards improved health outcomes.

***Goal 1:** Transform primary care practices across the state into patient-centered medical homes (PCMHs).*

***Goal 2:** Improve care coordination through the use of electronic health records (EHRs) and health data connections among PCMHs and across the medical neighborhood.*

***Goal 3:** Establish seven Regional Collaboratives to support the integration of each PCMH with the broader medical neighborhood.*

***Goal 4:** Improve rural patient access to PCMHs by developing virtual PCMHs.*

***Goal 5:** Build a statewide data analytics system that tracks progress on selected quality measures at the individual patient level, regional level and statewide.*

***Goal 6:** Align payment mechanisms across payers to transform payment methodology from volume to value.*

***Goal 7:** Reduce overall healthcare costs*
